

OVERVIEW

The TB2-4-8 Terminal Block Assembly is a pre-assembled terminal block for use in NexLight Enclosures. It provides easier field wiring connections between panels and devices.

TECHNICAL DATA

Conductor cross-section, solid (AWG/mm ²)	28~10 / 0.14~4
Conductor cross-section, flexible (AWG/mm ²)	
Rated impulse withstand voltage	6KV
Torque (N-m)	0.6
Screw	M3
Wire Strip Length	8~10 mm
Insulating Material	PA
TxHxW (mm)	6.1 x 40.95 x 45.4

DIMENSIONS
