

OVERVIEW

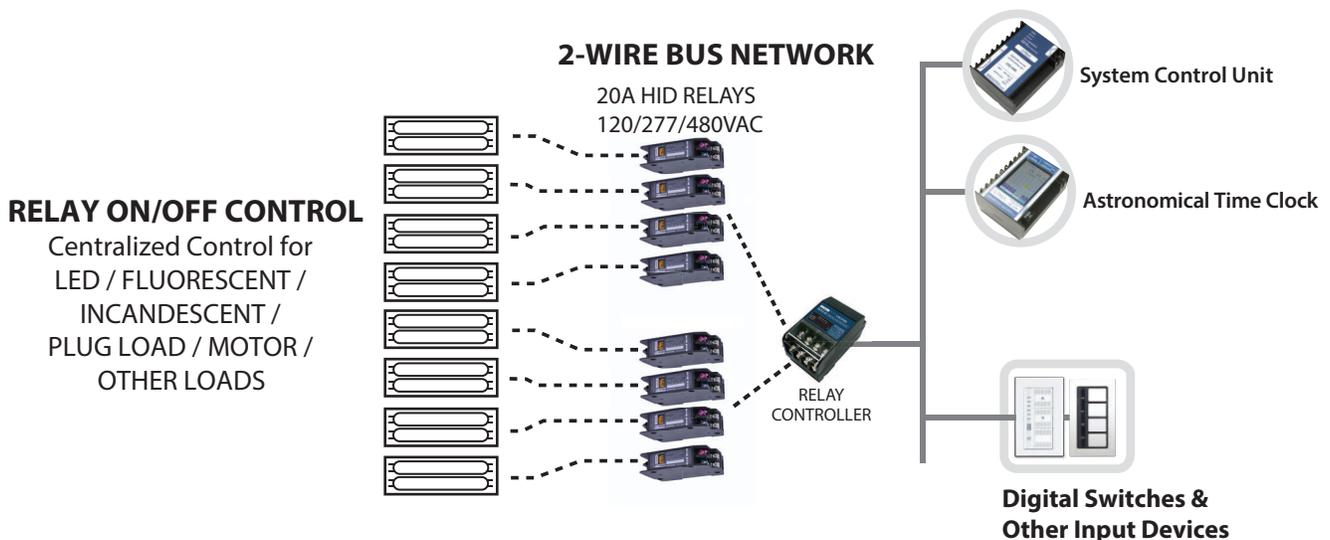

The CRC2180 Relay Controller (8) provides up to 8 uniquely addressed outputs for controlling NexLight HID relays. The controller provides the interface from the communication bus to the signals that operate the relay. It also monitors the ON/OFF status of the relay and provides that information to the NexLight 2-Wire communications bus.

FEATURES

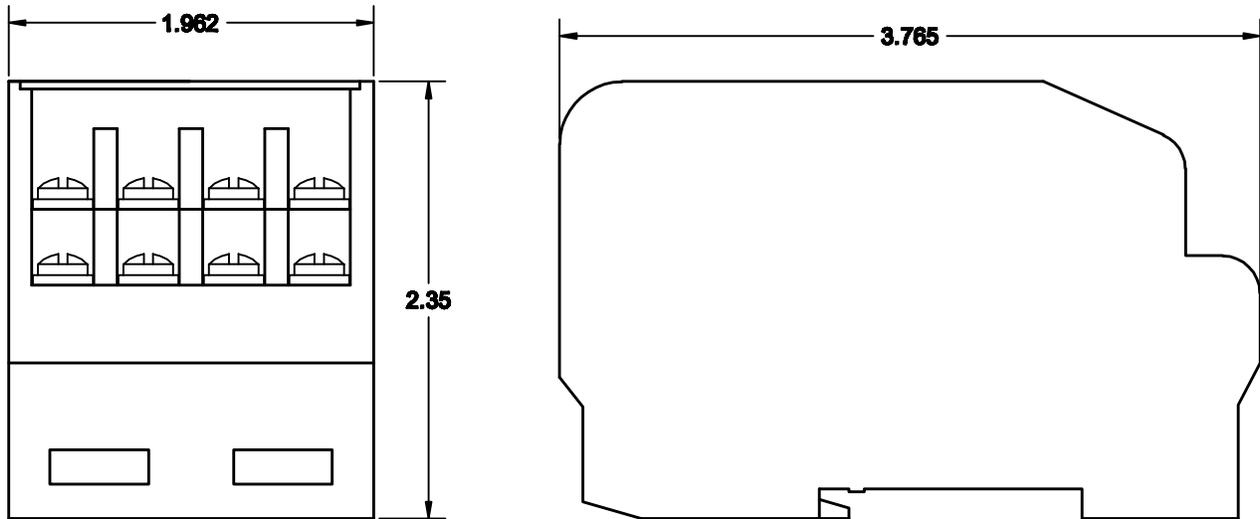

- Sends signal to control all NexLight HID Relays
- Monitors relay positions and provides true-status feedback to 2-Wire Bus
- Each relay controller is addressed using the CRC6400 Address Setting Unit
- Mounts using 2-spaces of Panel Mounting Straps

SPECIFICATIONS

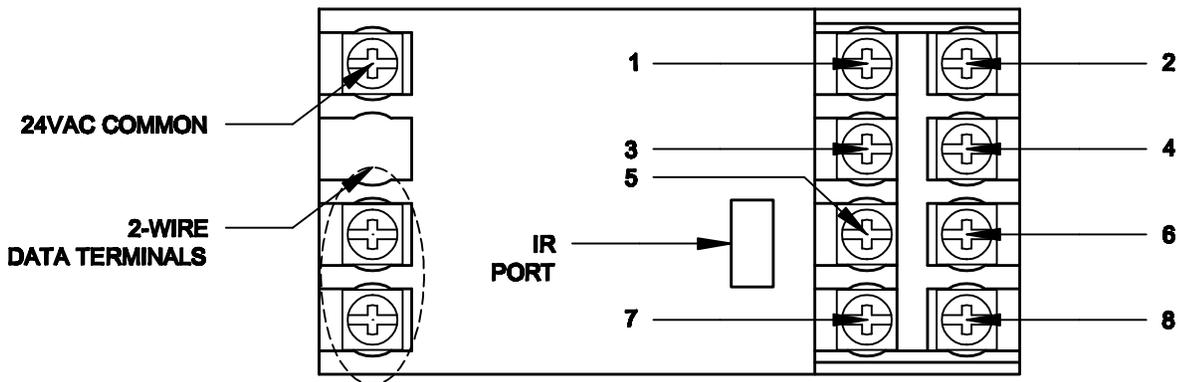

Size:	2.35"H x 3.77"W x 1.96"L (Overall) (60mm x 96mm x 50mm)
Weight:	5.33 oz
Mounting:	Panel Mounting Strap
Input Signal:	±24VAC 2.0 mA
Output Signal:	24VAC
Operating Temp:	14 to 131°F (-10 to 55°C)
Programming:	Via CRC6400

DIMENSIONS

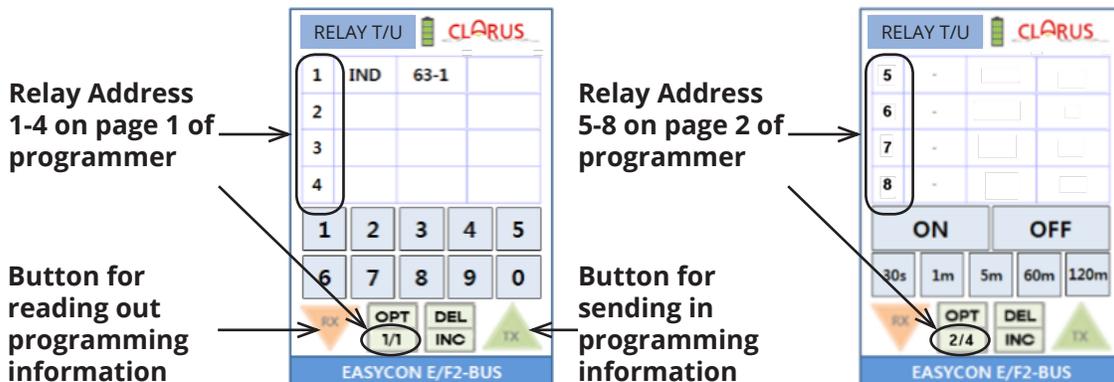

PROGRAMMING INFORMATION

DEVICE TERMINAL MAPPING

1. Relay One Output (page 1, address 1)
2. Relay Two Output (page 1, address 2)
3. Relay Three Output (page 1, address 3)
4. Relay Four Output (page 1, address 4)
5. Relay Five Output (page 2, address 5)
6. Relay Six Output (page 2, address 6)
7. Relay Seven Output (page 2, address 7)
8. Relay Eight Output (page 2, address 8)
